

7-23-4-1S.25ZN

A COMPLETE ROW CROP STARTER:

7-23-4-1S .25Zn is a high quality liquid fertilizer that is designed to deliver the appropriate amount of nutrients to get row crops (corn, soybeans, sunflowers, etc.) off to a healthy start, while ensuring seed safety.

7-23-4-1S .25Zn is a clean, easy to handle and uniform solution of nitrogen, phosphate, potassium, sulfur and zinc. This product is a 50% ortho phosphate, 50% poly phosphate blend. The zinc is 100% EDTA chelated.

BENEFITS OF STARTER FERTILIZERS:

- ◆ Enhance early season crop growth and uniformity
- ◆ Prevents early season nutrient deficiencies
- ◆ Increased potassium uptake due to potassium source being potassium acetate
- ◆ Potassium acetate has also been proven to increase root growth
- ◆ Sulfur is one of the most important nutrients in a starter fertilizer
- ◆ Can be stored in very cold temperatures
- ◆ Locally manufactured for great product availability throughout the planting season
- ◆ Lower salt product

TECHNICAL DATA SHEET

7-23-4-1 .25Zn

Liquid Starter Fertilizer

<u>Component</u>	<u>Analysis</u>
Total Nitrogen (N)	7.00%
7.00% ammonia nitrogen	
Available Phosphate (P ₂ O ₅)	23.00%
11.50% ortho-phosphate	
11.50% poly-phosphate	
Soluble Potash (K ₂ O)	4.00%
Sulfur (S)	1.00%
Zinc (Zn)	0.25%
<i>Derived from: ammonia, phosphoric acid, ammonium polyphosphate, potassium hydroxide, potassium acetate, ammonium thiosulfate, zinc EDTA</i>	
Specific gravity	1.33
Weight per gallon	11.1 lbs/gal
pH	6.4 - 6.9
Appearance	clear green liquid
Freezing temperature	5 deg F
